

INSTRUCTIONS

ARC 310 is used for Ames scientific and technical publications (as defined in NPG 2200.2A, "Guidelines for Documentation, Approval, and Dissemination of NASA Scientific and Technical Information") – namely, NASA formal series reports (Technical Papers (TP), Technical Memoranda (TM), Special Publications (SP), Conference Publications (CP), Contractor Reports (CR)). This form is also used for non-NASA documents (Journal Articles (JA), Meeting/Conference Papers (MP), Posters (PS) and Websites (WS)).

CRITERIA FOR PUBLICATION

To achieve the highest practicable standards in the documentation of scientific and technical information resulting from NASA or NASA-sponsored endeavors, each proposed publication, in conformance with the type of publication and as appropriate to its nature, must be subjected to scientific, technical, and editorial reviews. These reviews are to ensure that:

1. Scientific and technical coverage of the subject is complete and accurate and the text and figures are adequate for

- a clear understanding by the scientific, technical, or professional audience addressed.
- 2. Information contained in the publication is of sufficient scientific and technical merit to warrant release.
- 3. Scientific or technical content results from NASA or NASA-sponsored effort.
- 4. Papers containing security-classified or proprietary information are appropriately identified and marked.

PUBLICATIONS OFFICE REQUIREMENTS

The Editorial Support Office (Code JIL) provides support for manuscript editing and arranges for manuscript preparation, graphics preparation and printing/binding for NASA formal series reports, external publications and miscellaneous documents.

To publish a NASA TM (Technical Memorandum), CP (Conference Publication), or a journal article or meeting paper, bring the required Forms ARC 310 and NASA 1676 (Document Availability Authorization) with the manuscript to Bldg. 241, Room 102. The NASA editor will provide a NASA STI regulatory number and information to help the author locate editing and manuscript preparation services. To publish a TP (Technical Publication), SP (Special Publication), (CR) Contractor Report, or other miscellaneous documents such as an annual report, a Service Request (ARC 73) is required along with the ARC 310 and NF 1676. The Editorial Support Office will arrange for editing, manuscript preparation, graphics and final preparation for printing/binding.

If the author is unable to reach anyone at Ext. 4-6512, the document and required forms can be taken to the Documentation Development Division Take-In Desk in the lobby of Bldg. 241. Someone will contact the author within 48 hours. The required forms are available on the Ames Internet at <http://server—mpo.arc.nasa.gov/Forms/AEFS/AEFSServices.html>

AUTHOR'S INSTRUCTIONS TO PUBLICATIONS OFFICE (Check required services below)

- Format according to publisher's requirements and/or NASA standards:
 - References, equations, figures and tables must be mentioned in order and consistent throughout the document.
 - Place references in proper format.
 - Light edit: In addition to the items under format, correct grammar and punctuation
 - Check spelling and subjective agreement.
 - Check figures and tables for proper titles, labels, and units of measurement.
 - Substantive Edit: In addition to the above, rearrange syntax and improve readability.
 - Suggest rearrangement of paragraphs, sections, figures, tables, etc., if necessary.
- Additional requirements: _____

AUTHOR APPROVAL OF EDITING

Manuscript has been edited according to my instructions and is ready for final formatting.
